***"Give Me Your Rain"*** is the title track from Munro Patricks' first studio album. The acoustic, dynamic, and driving roots blues melody, (featuring very tasty slide guitar), combined with ***gritty and heart wrenching vocals, take this song to another level.*** At times tender and intimate, and in the next breath, overflowing with rock influenced soul. The raw and honest lyrics are the backbone to the song and evoke a longing to be woken and live free.

***Blues and Roots Radio, The Sound Cafe***
