

HEIDI MUNRO
AND THE
REAL
GROOVY
BAND

With a musical history rooted deep in rock, traditional country, gritty blues, roots, jazz, big band, and gospel, this infectious musical style and vibe is reminiscent of the rockin' Americana blues jam band scene of the early 70's.

As an artist, front woman and vocalist, Heidi has become widely known as an edgy, no-holds-barred performer, with an energetic, stage performance, that in a breath can become transparently emotional and intimate.

"The true artist she is and the level of work she strives for is highly evident in her work ethic, passionate live performance and the musicians that surround her".

– Kevin Tobin, SaskTel Saskatchewan International Jazz Festival.

She has honed her craft on countless stages, from small community halls, awards shows, television, soft seat theatres, international festivals to show lounges. With one of the most consistent and longstanding music careers in Western Canada, Heidi leads her 7-piece band of seasoned professionals who are widely known across the country. Collectively, these A-List musicians create a signature style and "feel good" groove, a blend of R&B, Jazz, Motown Blues, and Rock 'n' Roll with a hint of country flavour. The top shelf musicianship, original musical arrangements, tasty guitar riffs, intricate piano and organ rides, and spot-on horns will make you smile, it's like coming home.

"With consistent careers spanning decades, Heidi Munro, and Scott Patrick (of Munro & Patrick) combined are one vocal powerhouse, with such versatility and a soulful, energetic performance. The stage chemistry is natural and immediate. Their original songs are extremely well-crafted and get you in the feels".

This show features extremely well-crafted songs that "get you in all the feels", original songs from Heidi's 2017 release, Munro & Patrick's original Ep "Give Me Your Rain" and cover songs that showcase a trademark sound deeply entwined in their musical influences.
